

Timeless, Tylox[®] Quality, in a simple O-ring.

It may seem a “simple” design, but to ensure full functionality of the joint/gasket configuration, accuracy is critical.

All our “O” gaskets are crafted to the exacting quality standards that you have come to expect from your Tylox[®] products.

Tylox[®] “O” Gaskets offer :

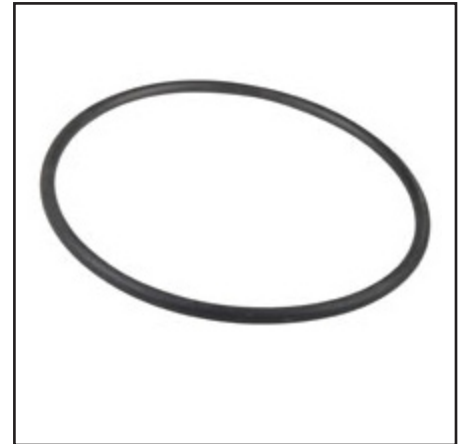

Multiple Cord diameters, for all sizes of recess and joint configurations.

Multiple compounds and durometers, allow for material selection to meet the most stringent of application and/or soil conditions.

Precision volumetric control, utilizing custom designed volume cutter.

Smooth, high-strength splicing, utilizing the latest in automated splicing techniques

ASTM C361 and AWWA C300, 301, 302 material requirement compliance

INSTALLATION

- Ensure Bell, Spigot, O-Ring recess and O-ring are free from loose debris or foreign material.
- Lubricate the recess and gasket thoroughly with a suitable grade of Tylox[®] Pipe Lubricant, taking care not to fill the recess with excess lubricant.
- Snap the O-ring into the recess
- Equalize the tension in the rubber by running a screw-driver shaft, or similar tool, under the o-ring, around the full periphery of the recess.
- Thoroughly lubricate the sliding surfaces of the gasket and bell.
- Align the spigot with the bell, ensuring that the gasket is in contact with the bell around the full circumference of the pipe.
- Thrust spigot home, using suitable mechanical means.

SPECIFICATIONS

Tylox[®] “O” gaskets are manufactured, as standard, to meet the material requirements of the following specifications:

- CSA A-257
- ASTM C361
- AWWA C300, 301 & 302

Other specifications may be available as special order. Please consult your Hamilton Kent representative for your specific requirements.

MATERIALS

Tylox[®] “O” gaskets are manufactured, as standard, in the following materials:

- Isoprene
- Optional Materials
- Nitrile
 - EPDM
 - Neoprene

Other compounds may be available as special order. Please consult your Hamilton Kent representative for your specific requirements.
